#### I. Listen to the conversation and number the expressions.

E.g. Dad: Hi Pepe, ( ) Pepe: I'm doing homework.  
1. Dad: What are you doing? ( ) Pepe: Of course dad.  
2. Dad: Ok, turn off the lights when you finish, please. (E.g.) Pepe: Hi dad!  
3. Dad: Thank you, Good night. ( ) Pepe: Goodnight dad!

#### II. Read the text and circle the correct answer.

##### **The Solar System** (extract)

The Solar System consists of the Sun and eight planets. The four smaller inner planets: Mercury (the smallest planet of the Solar System), Venus, Earth (our planet) and Mars, are primarily composed of rock and metal. The four outer planets, Jupiter (the biggest planet of the solar system), Saturn (the only planet that has rings), Uranus and Neptune, also called the gas giants, are far more massive than the inner planets.

4. How many planets does the Solar System have?  
a) Three planets      b) Eight planets  
  
5. Which is the biggest planet?  
a) Jupiter      b) Saturn
