

Comparative adjectives

1 Complete the text with the comparative form of the adjectives.

We've got a cat called Lisa and a dog called Bart. Bart is (1) (big) than Lisa and he loves running. Lisa likes running too, but Bart is (2) (fast) than her. Lisa is (3) (easy) to look after – we feed her, but we don't go for a walk with her. We go for a short walk with Bart in the morning and then we go for a (4) (long) walk in the evening. I love our pets, but I think Bart is a (5) (good) pet than Lisa. Dogs are (6) (exciting) than cats.
