Class Period: \_\_\_\_\_

**Mixed Computation Review—Add, Subtract, Multiply, and Divide**  
**“Liveworksheets” Work Page**

Solve the problems. Be sure to pay attention to the operation. Some quick reminders:

- **Add/Subtract**—Line up decimals. Add or subtract. Bring the decimal straight down.
- **Multiply**—Don't line up decimals. Multiply pretending there are no decimals. Count the number of decimals places in the problem, put the same number of places in the answer.
- **Divide**—Do you need to move the decimal on the outside? If so, move it inside the same number of spaces. Decimal straight up. Divide lining up digits carefully.

1)  $77.2 - 43.778 =$  \_\_\_\_\_

2)  $2.072 \div 0.4 =$  \_\_\_\_\_

3)  $68.1 * 0.09 =$  \_\_\_\_\_

4)  $27.001 - 7.5 =$  \_\_\_\_\_

5)  $4.23 * 9 =$  \_\_\_\_\_

6)  $19.2 + 31.82 =$  \_\_\_\_\_

7)  $97.68 - 32.3 =$  \_\_\_\_\_

8)  $0.468 \div 5 =$  \_\_\_\_\_

9)  $0.6144 \div 0.06 =$  \_\_\_\_\_

10)  $2.727 * 1.4 =$  \_\_\_\_\_

11)  $20.97 + 85.62 =$  \_\_\_\_\_

12)  $48 + 58.1 =$  \_\_\_\_\_
