

## Research Skills: Writing a Strong Research Question

Based on the PPT and class notes, write a strong research question that you could use for your research project.

Answer the following questions with TRUE or FALSE.

1. My research question is focused on a single topic or problem.
2. I can answer my research question using primary and secondary data.
3. My research question does not ask for a subjective value judgement.
4. I can answer my research question in the time limit of my research project.
5. My research question is specific.
6. My research question cannot be answered with a simple yes or no.
7. My research question addresses a problem or topic related to the field of business.
8. My research question has already been answered by others.
