## Advantages and Disadvantages of Social Networks

*Heavy use of Facebook is linked to stomach aches, sleeping problems, anxiety, depression and narcissism in teens.*

### What is social networking?

Social networks are an essential source of information for people of all ages. To keep in touch with friends, know about breaking news, or even buy and sell things.

All people have the right to express themselves on social networks respectfully. If you share something, make sure it's not offensive.

### BEFORE START: Answer these questions:

- What is your favorite social networks?

.....

- What do you use social networks for?

.....

Listen to an interview about advantages and disadvantages of social networks.

FAKE - PUBLIC - NEWS - STALK - DIFFERENT - USERS

1. Listen to the audio again and complete the sentences with one word.

- a. People can read the \_\_\_\_\_ on social networks.
- b. Some groups help each other with \_\_\_\_\_ situations.
- c. People create \_\_\_\_\_ profiles just to hurt people or \_\_\_\_\_.
- d. Most of the online \_\_\_\_\_ can't detect if it is a fake profile or not.
- e. Users post a lot of pictures and \_\_\_\_\_ information.

2. Classify the advantages and disadvantages listed above by writing the important phrase of the sentences.

Advantages	Disadvantages

Speaking:

3. Mention two advantages and two disadvantages with the use of social networks that you have personally experienced. Record a voice message and send it to your teacher by WhatsApp or Teams.
