	Chimp	anzees are so si	milar to us that	we are at once fa	ascinated and r	epelled. They a	are our strongest		
	(1) to nature, and, when we look at them we are reminded of our prehistor								
	(2) Their social life bears a strong resemblance to ours with political pov								
	(3)		on the o	der affection o	affection on the other. They seem to share				
similar gestures and (4) with us. Also, the						eir (5) of			
tools made us reconsider our definition of (6)						Another fe	eature that they		
	share	with us is their o	development of o	complex (7)		which	_ which are passed on to		
their young. It appears that (8) may als						within their (9)			
	As we	catch a (10)		of the mir	of the mind of a chimp, it helps us realise that we are not				
	alone.								
	Match	the words to the	he meanings:						
	1	grasp	a)	exhibit similar	ity or likeness t	to			
	2	glimpse	b)	openly					
	3	resemble	c)	frail, delicate					
	4	tender	d)	10.000 1 0.000 000 000	r seize firmly w	ith the hand			
	5	outright	e)		olete view or lo
