MATEMÁTICAS

1.-Aplica la propiedad distributiva en las siguientes multiplicaciones:

$$7 \times (3 + 5) = 7 \times 3 + 7 \times 5$$

7 ×

+ 35

$$9 \times (6 + 5) = 9 \times 6 + 9 \times 5$$

Diagram illustrating the distributive property of multiplication over addition. The left side shows $9 \times (6 + 5)$ with blue lines connecting the 9 to both 6 and 5. The right side shows $9 \times 6 + 9 \times 5$ with blue lines connecting the 9s to 6 and 5 respectively. Below the right side, the result $54 + 45$ is shown, with blue lines connecting the 54 to the 9 and 6, and the 45 to the 9 and 5.
