

Difference between HDDs and SSDs

Activity 9

Sultan is going to the shops to buy a new computer. He is trying to decide whether to buy a computer/laptop with an HDD or an SSD.

Help him to make up his mind by answering the questions below.

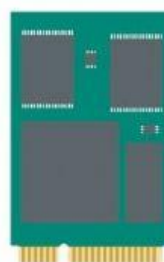

Sultan's requirements	HDD	SSD
Sultan needs a device that can boot up in roughly 10 seconds..		
Sultan has less money to spend.		
Sultan wants something that produces less noise.		
Sultan wants something lightweight.		
Sultan is quite clumsy. He always drops his devices.		

Based on what Sultan's requirements, do you suggest Sultan buys a device with a HDD or an SSD. Explain why.
