

Identify the following adaptations of pollination, write **by insects** or **by wind**.

1. \_\_\_\_\_ They are white or have brightly coloured petals
2. \_\_\_\_\_ The petals are small and not brightly coloured.
3. \_\_\_\_\_ They make lots of smooth, light pollen grains that blow
4. \_\_\_\_\_ They have a scent.
5. \_\_\_\_\_ They produce nectar.
6. \_\_\_\_\_ They do not have a scent or nectar.
7. \_\_\_\_\_ They have marks on the petals to guide the insect to the nectar inside the flower.
