

Dear student, listen and complete the gaps, in each space you need to include more than one word.

### Cybercrime

I \_\_\_\_\_ people understand cyber-crime. It's only just started. In the future, it's going \_\_\_\_\_ problem. There have already been a few amazing examples. A few years \_\_\_\_\_ Internet in Latvia was attacked by another country. Cyberspace has \_\_\_\_\_ battleground. Countries \_\_\_\_\_ other. If there's a war, it's possible one country could attack the other country's Internet. This \_\_\_\_\_ communication, transport, etc. would stop. It would cause \_\_\_\_\_ to hospitals and other important buildings. But cyber-crime is happening \_\_\_\_\_ people. Have you \_\_\_\_\_ phishing? That's with a 'ph.' not 'f'. You really need to be very careful about what information \_\_\_\_\_.
