

- 1. Your main job in taking lecture notes is to be a good listener.
- 2. To be a good listener, you must learn to focus and concentrate on the main points of the lecture.
- 3. Get them down, and then later reorganize them in your own words.
- 4. Once you have done this, you have set the stage for successful reviewing and revising.

- 1. They found that bees can see the blue halo and use it as a signal to locate flowers more efficiently.
- 2. By manufacturing artificial surfaces that replicated 'blue halos', scientists were able to test the effect on pollinators, in this case foraging bumblebees.
- 3. These nanostructures scatter light particles in the blue to ultraviolet color spectrum, generating a subtle effect that scientists have christened the 'blue halo'.
- 4. The latest research has found that several common flower species have nanoscale ridges on the surface of their petals that meddle with light when viewed from certain angles.
