

THE LIFE CYCLES OF ANIMALS

Consolidation worksheet 1

WHY DO ANIMALS REPRODUCE?

Tick (✓) the boxes next to the statements that are TRUE.

1	Living things reproduce to ensure the continuity of their own kind.	
2	A life cycle is made up of all the stages of an animal's life.	
3	All mammals give birth to their young alive.	
4	Not all fishes lay eggs.	
5	The life cycles of animals and the life cycles of plants are the same.
