

MATEMATIK

NAMA:

KELAS: INTAN

Tajuk: operasi tolak (pengiraan cara menaik)

Selesaikan

$$10 - 6 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $10 - 6 = \square$ is written in white. The number 6 is circled in red. Below the equation, there is a yellow oval containing six red ants. An arrow points from the oval to the empty box.

Selesaikan

$$10 - 5 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $10 - 5 = \square$ is written in white. The number 5 is circled in red. Below the equation, there is a yellow oval containing five diagonal lines. An arrow points from the oval to the empty box.

Selesaikan

$$12 - 7 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $12 - 7 = \square$ is written in white. The number 7 is circled in red. Below the equation, there is a yellow oval containing seven pink flowers. An arrow points from the oval to the empty box.

Selesaikan

$$13 - 11 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $13 - 11 = \square$ is written in white. The number 11 is circled in red. Below the equation, there is a yellow oval containing eleven diagonal lines. An arrow points from the oval to the empty box.

Selesaikan

$$14 - 8 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $14 - 8 = \square$ is written in white. The number 8 is circled in red. Below the equation, there is a yellow oval containing eight yellow bees. An arrow points from the oval to the empty box.

Selesaikan

$$17 - 10 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $17 - 10 = \square$ is written in white. The number 10 is circled in red. Below the equation, there is a yellow oval containing ten diagonal lines. An arrow points from the oval to the empty box.

Selesaikan

$$11 - 9 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $11 - 9 = \square$ is written in white. The number 9 is circled in red. Below the equation, there is a yellow oval containing nine orange fish. An arrow points from the oval to the empty box.

Selesaikan

$$16 - 12 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $16 - 12 = \square$ is written in white. The number 12 is circled in red. Below the equation, there is a yellow oval containing twelve diagonal lines. An arrow points from the oval to the empty box.

Selesaikan

$$15 - 10 = \square$$

A green chalkboard with a wooden frame. The word 'Selesaikan' is in the top left. The equation $15 - 10 = \square$ is written in white. The number 10 is circled in red. Below the equation, there is a yellow oval containing ten black spiders. An arrow points from the oval to the empty box.
