

1. Choose the correct answers to complete the summary of Dr. Makri's ideas.

Can we 1. (*do / make / take*) our own luck? Dr. Makri has been 2. (*doing / making / taking*) research into serendipity and he believes we can. The secret lies in 3. (*doing / making / taking*) advantage of opportunity when it comes our way. If you see an opportunity in a chance event, you should 4. (*do / make / take*) action and 5. (*do / make / take*) the most of that opportunity.

Everyone can be 'luckier'. If you get out and meet people, you'll have more chance encounters. Be brave and 6. (*do / make / take*) risks in order to act freely when an opportunity comes your way.

2. Write *do*, *make*, or *take* for each group of words.

1. (*do / make / take*) money, a decision, a mistake, progress
2. (*do / make / take*) a risk, advantage of something, a chance
3. (*do / make / take*) sense, a difference, the most of something
4. (*do / make / take*) your homework, (some) research
5. (*do / make / take*) well / badly (e.g. in an exam), your best
6. (*do / make / take*) part in something, care of someone, action
7. (*do / make / take*) a break, a nap, it easy
8. (*do / make / take*) a phone call, new friends easily

3. Complete the topics with *do, make, or take*. Then give detailed answers to each questions.

When was the last time you ...?

1.	did	made	took	a big risk?
2.	did	made	took	a difficult decision?
3.	did	made	took	the most of something?
4.	did	made	took	it easy?
5.	did	made	took	an important phone call?
6.	did	made	took	a new friend?
7.	did	made	took	well in an exam?
8.	did	made	took	a stupid mistake?
9.	did	made	took	advantage of something?
10.	did	made	took	your best at something?
