

PROJECT

PART 1: MEANS OF TRANSPORTATION AND POLLUTION IN CALETA OLIVIA

- 1) What is the environment? Watch this video

<https://drive.google.com/open?id=1-Vczh2JKlspFSV9BaGc8-vnposk6opRr&authuser=0>

True (T) or false (F)

- 1) Environment consists of air, water and land. _____
- 2) People and animals are part of the Environment. _____
- 3) Animals, neighbours and friends are considered as 'people'. _____
- 4) You can find fish in the air. _____
- 5) Birds and butterflies can fly. _____
- 6) Green Grass and blue sky are not part of the environment. _____
- 7) The environment provides only air and water. _____

- 2) Pollution:

There are lots of environmental problems nowadays, mainly because of the environment's biggest enemy: pollution. It is the contamination of air, water and soil by different materials that interfere with human health and quality of life.

The emissions from industries and engines, including cars, are big causes of air pollution and simple things that we do at home, like using aerosols, have bad effects on the ozone layer, which protects life on Earth from ultraviolet radiation.

Water is also suffering from pollution by domestic, municipal and also industrial waste.

It is up to us to stop damaging the environment. We all should be environment friendly!

***** Answer the following questions

1. What is the biggest enemy of the environment?

2. What are the causes of air pollution?

3. What's wrong with aerosols?

4. What is the function of the Ozone Layer (capa de ozono)?

5. Is water suffering from pollution too?

3) Complete the table about the means of transportation in our city

 uses fossil fuel

 eco-friendly

✓✓✓ = too many!

✓✓ = some

✓ = a few

★★★★★ = excellent

★★★★ = very good

★★★ = good

★★ = fair

★ = bad

Means of Transportation	In My Town?	Ecological Impact	Rating
