

CONNECTORS

Connectors are linking words which join sentences and ideas. There are several groups:

- **Connectors of sequence or time connectors** (first, second,...)
- **Connectors of addition** (also, besides,...)
- **Connectors of contrast** (although, however,...)
- **Connectors of condition** (if, unless,...)
- **Connectors of result** (so, therefore,...)
- **Connectors of reason** (as, in case, because,...)
- **Connectors of purpose** (in order to, so as to,...)
