TEST 3

ACELERADO 1 ADULTOS

Josie has a blog! Read this entry about her neighbors.

Hello there! I'm Josie. I'm 38 and I'm from the U.S. I'm a secretary in a big international company.

I live alone in an apartment and during quarantine I have to work from home but I have a big problem...My neighbors are extremely noisy! A young couple with small children live upstairs. Their children shout all the time. They also have a dog; it usually barks when they aren't at home. Oh, the baby is crying now... again!

An old couple live next door. They get up at 5 o'clock every day and usually have the TV on very loud because they almost can't hear. Right now, they are arguing about which shows they are going to watch. Luckily, they go to bed very early.

Three university students live downstairs; they are usually friendly and quiet on weekdays. But on weekends, they have parties and their music is very loud! They are also in a band, so they play musical instruments every Saturday. I can't relax or read a book on weekends. At the moment they are quiet because today is Tuesday. Thank goodness!

I think I need a new apartment or some new neighbors!

Now read Josie's blog again and choose TRUE or FALSE and correct the false ones. (7x3=21)
