

At the end of this lesson, you should be able to:

- Label the nets of solids with correct measurement

Time, Perimeter, Area & Volume

Surface Area

No	Question	Answer
1	Find the surface area of the cuboid below: 	Draw the nets of the cuboid with the correct measurement.  $\text{Area A} = 5 \times 10 = 50 \text{ cm}^2$ $\text{Area B} = 8 \times 10 = 80 \text{ cm}^2$ $\text{Area C} = 5 \times 8 = 40 \text{ cm}^2$ <i>Surface Area</i> $= (2 \times \text{Area A}) + (2 \times \text{Area B}) + (2 \times \text{Area C})$ $= (2 \times 50) + (2 \times 80) + (2 \times 40)$ $= 100 + 160 + 80$ $= 340 \text{ cm}^2$
