#### **SECTION E. READING COMPREHENSION:**

**Read the following passage and choose the best answer for each of the sentences.**

The generation gap refers to the differences between the young and the old and can lead to conflicts between the two. Generation gaps occur when two age groups have different views toward life. The old generation always wonders what has gone wrong with the new generation. **They** feel that during their time, young boys and girls were better-behaved, more obedient and had more respects for elders. Young people on the other hand, feel that they are able to learn on their own. They also don't need to rely on the older generation for advice

We can solve generation gap issues through more discussion and interaction. Old people should **admit to** the ability of the young, whereas youngsters should express their opinions respectfully. Therefore, people from both age groups should realize that every individual has positive and negative characters, as well as some limitations.
