The diagram illustrates the transformation of a 5x5 grid into a 4x5 grid. The first row of the 5x5 grid, containing the values 5, 2, 3, and 0, is crossed out with red lines. A red arrow points from the first column of the 5x5 grid to the first column of the 4x5 grid. The 4x5 grid contains the values 1, 0, 8, and 6 in its second row.
