Name: _____   Year: _____

Subtracting Unlike Fractions

1) Subtract the fractions below:

$$\frac{2}{3} - \frac{3}{12}$$

But before that, find the equivalent fraction below:

x _____

$$\frac{2}{3} = \frac{}{12}$$

x _____

Lastly, subtract the fractions:

$$\frac{}{12} - \frac{3}{12} = \frac{}{}$$

2) Subtract the fractions below:

$$\frac{7}{12} - \frac{1}{4}$$

But before that, find the equivalent fraction below:

x _____

$$\frac{1}{4} = \frac{}{12}$$

x _____

Lastly, subtract the fractions:

$$\frac{7}{12} - \frac{}{12} = \frac{}{}$$
