

Question 4

Examine Figure 1 which shows a landscape that has been shaped by different physical processes including erosion, transportation and deposition by rivers and the sea. Answer each of the following questions.

(a) In the table below, match each of the features labelled 1 to 5 on Figure 1 with the correct term from the box. One has been completed for you.

| Bay | Meander | Source |
|----------|----------|-----------|
| Headland | Delta | Sea stack |
| Number | Feature | |
| 1 | | |
| 2 | | |
| 3 | | |
| 4 | Headland | |
| 5 | | |

(b) **Figure 1** shows an area along the coast similar to the area that Ireland's first settlers arrived at long ago. If you were one of the first settlers in the area shown in **Figure 1**, would you choose to settle at site A or B or C?

Explain in detail why you would choose to settle at this site.
