4th Basic Reading Name: _____ Date: _____

Finding Dory

Identify the parts of the story and label them correctly:

Plot **Characters** **Setting** **Problem** **Solution**

1. California sea waters and Marina Life Institute. _____

2. Dory is a blue tang fish who suffers from short memory loss. The one thing she can remember is that she was separated from her parents as a child. With help from her friends Nemo and Marlin, Dory embarks on a great adventure to find them. She sets off on a journey across California waters. Her journey brings her to the Marine Life Institute. Dory now knows that her family reunion will only happen if she can save her mom and dad from captivity. _____

3. Dory, Merlin, Nemo and Dory's parents. _____

4. Looking for her family, Dory sees a trail of shells, which she remembers as the thing her parents used to leave her as clue to find her way home. So Dory follows it and she finds her parents, _____

5. Dory suffers from short term memory loss and she cannot remember where she lives with her mum and dad. So she recruits Marlin and Nemo for a life-changing adventure across the ocean to California's Marine Life Institute. _____
