These days, most people in Britain and America do not wear very formal clothes. But sometimes it is important to wear the right thing.

Many British people don't think about clothes about clothes very much. They just like to be comfortable. When they go out to enjoy themselves, they can wear almost anything. At theaters, cinemas and concerts you can put on what you like from elegant suits and dresses to jeans and sweaters. Anything goes, as long as you look clean and tidy.

But in Britain, as well as in America, men in offices usually wear suits and ties, and women wear dresses or skirts (not trousers). Doctors, lawyers and business people wear quite formal clothes. And in some hotels and restaurants men have to wear ties and women wear smart dresses.

In many years, American people are more relaxed than British people, but they are more careful with clothes. At home, or on holiday, most American people wear informal or sporty clothes. But when they go out in the evening, they like to look elegant. In good hotels and restaurants, men have to wear jackets and ties, and women wear pretty clothes and smart hairstyles.

It is difficult to say exactly what people wear informal or formal in Britain and America, because everyone is different. If you are not sure what to wear, watch other people do and then do the same. You'll feel more relaxed if you don't look too different from everyone else.

socio-economic development. According to Ms, Le Thi Quy, Director of the Gender/and Development Research Centre under the University of Social Sciences and Humanities, Hanoi National University, gender equity in Vietnam has reached a high level over the past decade. The rate of Vietnamese women becoming National Assembly members *from* the 9th term to the 11th term increased 8.7%, bringing the proportion of Vietnamese women in authority to 27.3%, the highest rate in Southeast Asia. The legitimate rights of women and children are ensured more than ever before with more complete legal documents including laws, conventions and national action plans, among which the laws on "gender equity" mark a turning-point in the empowerment of women.

Mass media also highlights the continued success of women in every field and honors their great importance in modern society, helping to do away with outdated perceptions about traditional women's duties. Many projects on reproductive health care, children protection, and family income improvement jointly conducted by various mass organizations, state agencies and non-governmental organizations have created favorable conditions *for* women to become involved.
