Alkali metals	Halogens	Metals	Non-metals	Periods
Groups	Mendeleev	Noble gases	Nucleus	

Questions

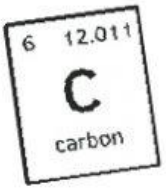

1. Name the particles found in the nucleus of an atom.

2. Name the particles that are placed in the shells of an atom.

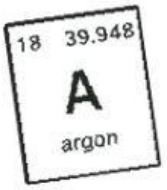

3. How did Mendeleev arrange the periodic table?

4. Which elements react with water to produce hydroxides and hydrogen?

5. Which elements are said to be inert?
