GRAMMAR REVIEW

Superlative adjectives

To make superlative adjectives, we normally add **-est** or **-st**. For adjectives with two or more syllables, we put **the most** before the adjective.

*I like French and Geography, but History is **the most interesting** subject.*

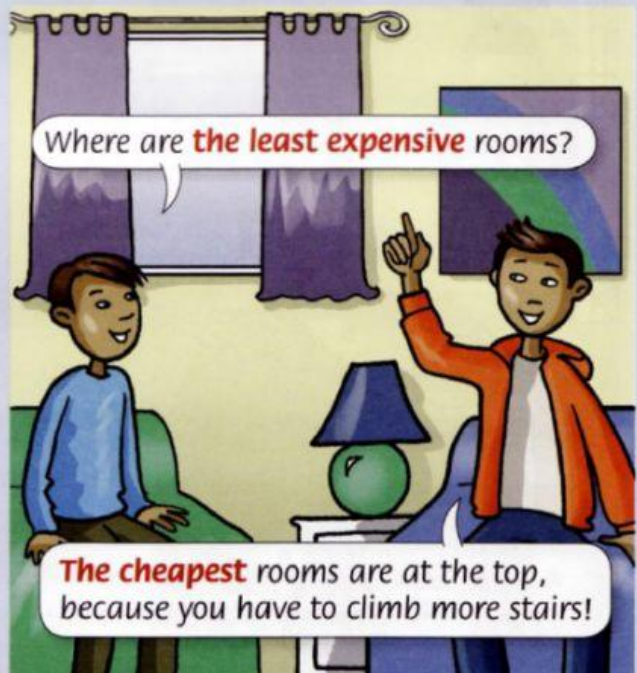

The opposite of **the most** is **the least**. We use **the least** in the same way as **the most**.

*All the lamps are expensive, but this one is **the least expensive**.*

The two most common adjectives that have irregular superlatives are **good** and **bad**.

*Olly is **the best** at football.*

*Ryan is **the worst** at football.*
