First of all… remember the past simple grammar structures:

AFFIRMATIVE

SUBJECT	VERB in the past	COMPLEMENTS
I	**found**	the treasure
You	**broke**	the window
My friends	**drew**	a beautiful picture

NEGATIVE

SUBJECT	DIDN'T	VERB infinitive	COMPLEMENTS
He	**didn't**	feel	the earthquake
We	**didn't**	go	to the museum
Helen	**didn't**	drink	cold water

INTERROGATIVE

DID	SUBJECT	VERB infinitive	COMPLEMENTS	ANSWERS
Did	you	come	to the party?	*Yes, I did* *No I didn't*
Did	Arthur	know	my sister?	*Yes, he did* *No, he didn't*
Did	they	send	a postcard?	*Yes, they did* *No, they didn't*

As you can see, the biggest difficulty is knowing **THE PAST OF IRREGULAR VERBS** to use it correctly in affirmative sentences.

In negative and interrogative sentences, we use the infinitive because **DID** and **DIDN'T** indicate us that we are in the past.

My father **left** his car in the middle of the street

We use the past in affirmative sentences while in negative and interrogative we write the verb into **infinitive**

My father **didn't leave** his car in the middle of the street

Did my father **leave** his car in the middle of the street?

Did or **didn't** indicate the past tense
