

LOS NÚMEROS HASTA EL 9.999

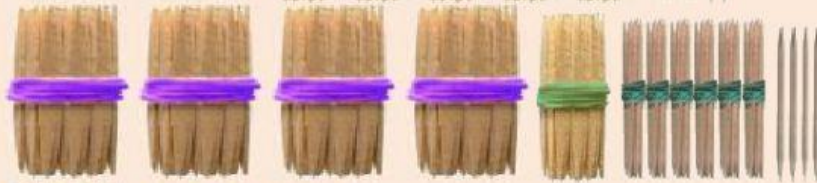

1. Une con flechas.

2.445

1.336

3.243

2.522

4.164

2. Selecciona mayor, menor o igual (>, <, =).

1.998 2.008

3.515 3.155

8.819 8 UM

4.277 4.727

5.100 4.999

5.000 5 UM

1.200 12 C

7.891 7.918

5.217 5.712

2.679 26 C

9.001 9 UM

3.168 3.068

1.537 2.357

8.214 9 UM

7.000 7 UM

5.020 5.200

3. Escribe el número anterior y posterior.

	5.103			3.200			4.810	
----------------------	-------	----------------------	----------------------	-------	----------------------	----------------------	-------	----------------------

	6.620			1.000			9.899	
----------------------	-------	----------------------	----------------------	-------	----------------------	----------------------	-------	----------------------

	7.070			8.509			6.700	
----------------------	-------	----------------------	----------------------	-------	----------------------	----------------------	-------	----------------------

	9.445			2.720			8.701	
----------------------	-------	----------------------	----------------------	-------	----------------------	----------------------	-------	----------------------

4. ¿Entre qué millares están estas cantidades?

5.

6.000 - 6.507 - 7.000		4.235			6.821	
-----------------------	----------------------	-------	----------------------	----------------------	-------	----------------------

	7.634			2.894			8.879	
----------------------	-------	----------------------	----------------------	-------	----------------------	----------------------	-------	----------------------

	5.670			1.530			3.775	
----------------------	-------	----------------------	----------------------	-------	----------------------	----------------------	-------	----------------------

	4.495			3.736			4.891	
----------------------	-------	----------------------	----------------------	-------	----------------------	----------------------	-------	----------------------
