C.B 8- T.2:

Look at the two pie charts below and answer the following questions.

- 1 What do the two pie charts show?
- 2 What is the most popular type of social media for both men and women?
- 3 What is the least popular type of social media for both men and women?
- 4 Do the pie charts show any significant difference in social media use between men and women?

The two pie charts illustrate the social media platforms used by men and women in the USA, aged 18 – 24 years, in 2018. (1) Overall, Facebook is the most popular social media platform for both genders, with 40% of women and 39% of men using the website. (2) The least popular type of social media for young people in this age group is WhatsApp with only 9% of men and 10% of women using the application. (3)

Instagram is also used fairly equally by both men and women, with 19% and 20% respectively using the application. The most significant difference in social media preference between men and women is seen with Snapchat and Twitter. Snapchat is more popular with women than men, with 23% of women using it compared with only 11% of men. In contrast, Twitter is not as popular as Snapchat with women. Only 9% of women use Twitter, whereas 22% of men use it. (4-8)

Overall, social media use between young men and women in the USA in 2018 is fairly similar. The most significant difference between the genders is seen with the use of Snapchat and Twitter. (9)
