ARE WE
LIVING FASTER?

No time for anything

1 Reading & Vocabulary: time expressions

a Read the article and match the headings to the paragraphs.

We're living faster, but are we living better?

1

People in cities around the world walk 10% more quickly than they did twenty years ago. Singapore, a world business centre, is top of the list for fast walkers.

2

In the USA there is a book called One-Minute Bedtime Stories for children. These are shorter versions of traditional stories, especially written for busy parents who need to save time.

3

People aren't as patient as they were in the past. If the lift takes more than 15 seconds to arrive, people get very impatient because they think they're wasting time. It's exactly the same when an internet page does not open immediately.

4

Written communication on the internet is getting shorter and shorter and using more and more abbreviations, like BFN (bye for now) or NP (no problem). Twitter only allows you to use 140 characters, and now a new social networking site has a limit of just ten words.

5

Even in our free time we do things in a hurry. Twenty years ago when people went to art galleries they spent ten seconds looking at each picture. Today they spend much less time – just three seconds!

6

Our cars are faster, but the traffic is worse, so we drive more slowly. The average speed of cars in New York City is 15 km/h. We spend more time than ever sitting in our cars, feeling stressed because we aren't going to arrive on time.

Questionnaire:

How fast is your life?

1 Do people tell you that you talk too quickly?

2 Do you get impatient when other people are talking?

3 Are you the first person to finish at mealtimes?

4 When you are walking along a street, do you feel frustrated when you are behind people who are walking more slowly?

5 Do you get irritable if you sit for an hour without doing anything, e.g. waiting for the doctor?

6 Do you walk out of shops and restaurants if there is a queue?

2 Grammar; comparative adjectives and adverbs, as...as
