MY DREAM JOB

Hello! I'm María Pineda and I'm a doctor.

I work at Gregorio Marañón Hospital in Madrid.

I wanted to be a doctor since I was a little girl so this is definitely my dream job.

To be a doctor you have to go to university and study for 8 years.

Then you have to work many hours a week and you have to like people.

The most difficult part for me is working at night. I don't have to wear a uniform but I have to wear a gown.

The best part of being a doctor is making people feel better, especially children.

1) When she was a girl, she wanted to be a teacher.
