Part 4: Comprehension Questions *(Questions 25 – 34)*

STAY HEALTHY, BREATHE EASY

What particles are found in haze?

Public Views:

A) **Mariam, Housewife**
For days, the haze remained. Innocent victims suffered from throat itchiness, coughing, eye irritation and watery eyes, runny nose and itchy skin. Children and the elderly were the most affected.

B) **Dr. Vicky, JB Health Clinic**
When the API reaches an unhealthy level, stay indoors, wear masks and drink plenty of water. See a doctor if the symptoms persist.

C) **Wong Jia En, Student**
Action must be taken against those who cause climate change. When irresponsible people pollute our air, they must be punished.

Air Pollution Index (API)

On hazy days, monitor the Air Pollution Index (API) before carrying out outdoors activities. When the air quality is hazardous, stop outdoor activities.

Numerical Value	Levels of Health Concern	Meaning
0 to 50	Good	Air quality is considered satisfactory, and air pollution poses little or no risk.
51 to 100	Moderate	Air quality is acceptable. There may be a moderate health concern for a very small number of people who are unusually sensitive to air pollution.
101 to 150	Unhealthy for sensitive groups	Members of sensitive groups may experience health problems. The general public is not likely to be affected.
151 to 200	Unhealthy	Everyone may begin to experience health problems. Members of sensitive groups may experience more serious health problems.
201 to 300	Very unhealthy	Health alert: everyone may experience more serious health problems.
300+	Hazardous	Health warnings of emergency conditions. The entire population is more likely to be affected.
