

Hi Assalamualaikum and good morning my awesome students..
Lets watch the following video for today's lesson. Today's lesson
is Drawing The Lines Of Symmetry.

L. O: able to draw the lines of symmetry of the given figures.

S2S:

- 1) Find the centre of the shape where you think you can fold into half and match the other half perfectly.
- 2) Drag the line in your live worksheet to draw the line of symmetry.
- 3) Remember, some shapes may have more than 1 line of symmetry.
- 4) So, think carefully before you draw.

Now, click the link on the antique tv screen below. After that, you
may do the following exercises:

Exercise: Draw the lines of symmetry. Some shapes may have more than 1 line of symmetry. Try to draw the lines exactly in the middle/centre of the shape. Then, click FINISH.
