

HOW DO WE HEAR

Name :

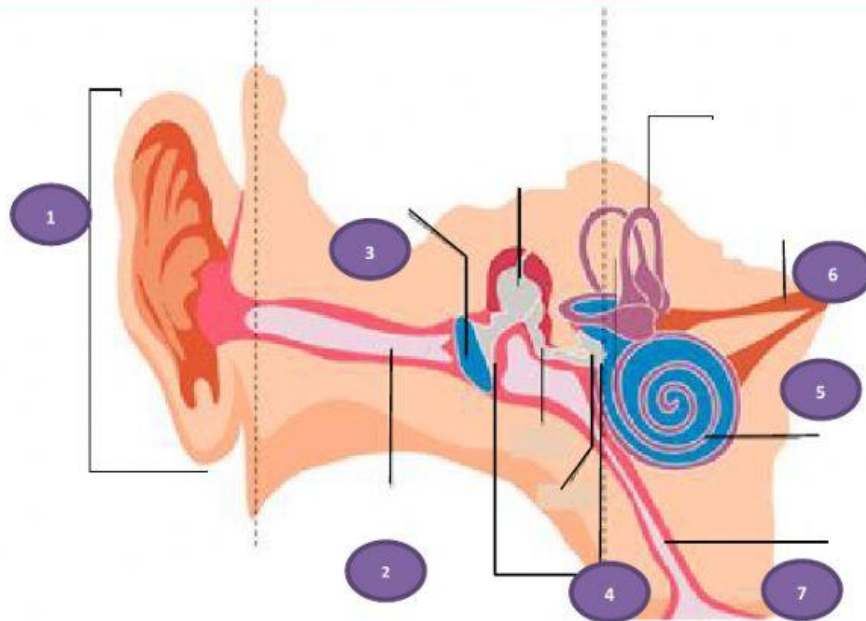

Class :

Date :

Goals

1. Investigate the part of the ear
2. Investigate the function of the ear's parts

PART AND FUNCTION OF EAR

Hammer	Semisircular canal	Ossicle	Ear drum	Stirrup	Cochlea	Middle Ear
Ear canal	Auditory nerve to the brain	Outer Ear	Anvil	Inner Ear	Pinna	Eustachius tube

Function:

Transfer sound signal to the brain

Creating nerve signal of sound

Reseptor vibration from ossicle

Increase vibration from ear drum

Transfer vibration to ossicle

Accept vibration from ear canal

Produce ear cerumene/earwax

Transfer sound waves to ear drum

Collect sound waves
