RIGHT TO EQUALITY AND RESPECT (The Wooden Plate)

Once upon a time there was a girl named Masha who lived with her parents and her grandfather of legal age, the girl's parents saw the grandfather who threw away the glass, dishes every day ... could not hold a glass dish they decided to look for an old table and they placed it far from the table where they normally eat and they also looked for old dishes so that when the man ate he would throw away plastic glasses and they could not see it, one day the father observed the girl was making wooden utensils and the father asked the girl what are you doing?

And the girl replied: making the dishes that you are going to use when you are old and from there they treated the man as the same as everyone else. We all have the right to treat people of different ages the same as well as to be treated.
