

U5 CI: The balance in our ecosystems has an impact on all of us

1. Complete these definitions. Write BIOME / HABITAT / ECOSYSTEM

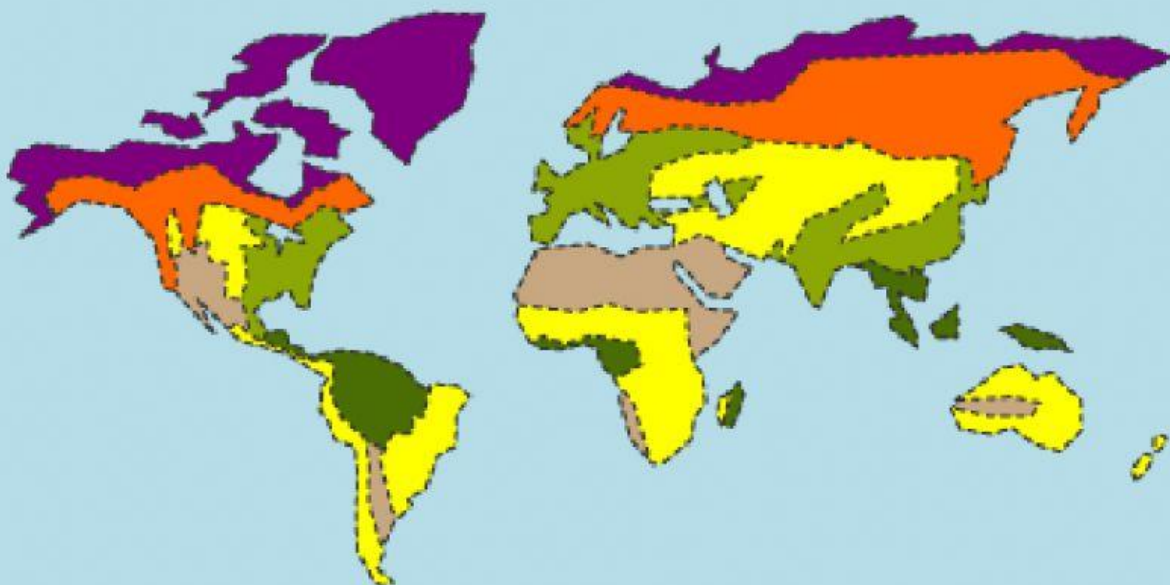

A _____ is a large region of Earth that has a certain climate and certain types of living things.

The plants and animals that live there have traits that help them to survive.

An _____ is made up of all of the living and non-living things in an area that coexist and interact with each other. This includes all of the plants, animals and non-living materials—for example, water, rocks, soil, and sand

A _____ is the home of an animal or a plant where it has the best conditions to live.

2. Biomes on a map. Write the names of the biomes in the key: taiga / tundra / desert / grassland / rainforest / temperate forest

|  | <input type="text"/> |  | <input type="text"/> |
|  | <input type="text"/> |  | <input type="text"/> |
|  | <input type="text"/> |  | <input type="text"/> |

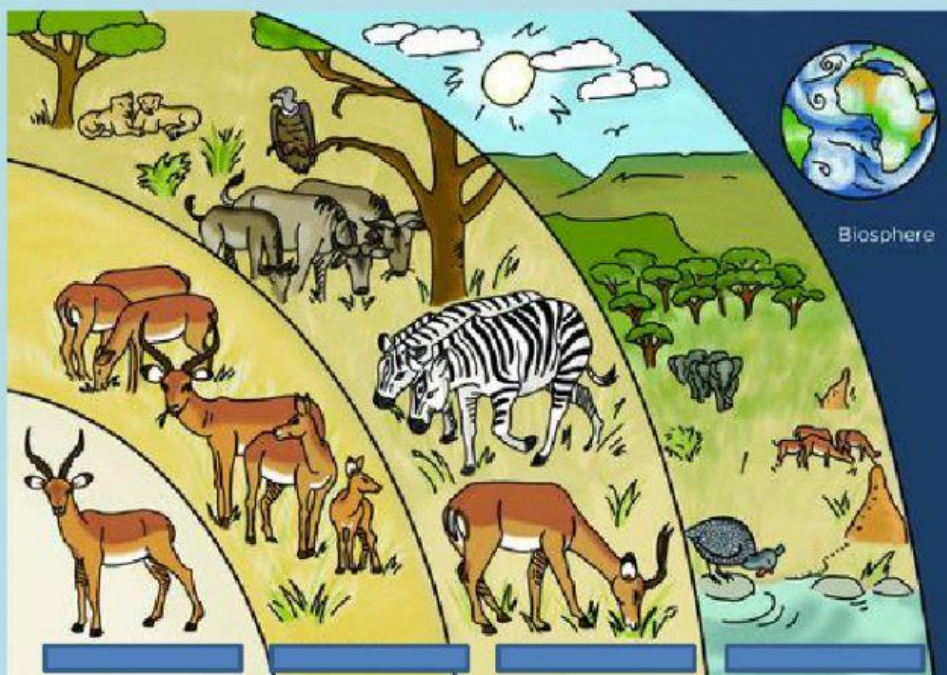

3. What are the major terrestrial (land) biomes?

4. What are the major aquatic (water) biomes?

5. Write living or non-living on the picture

6. Write population / community / ecosystem in the picture and definition

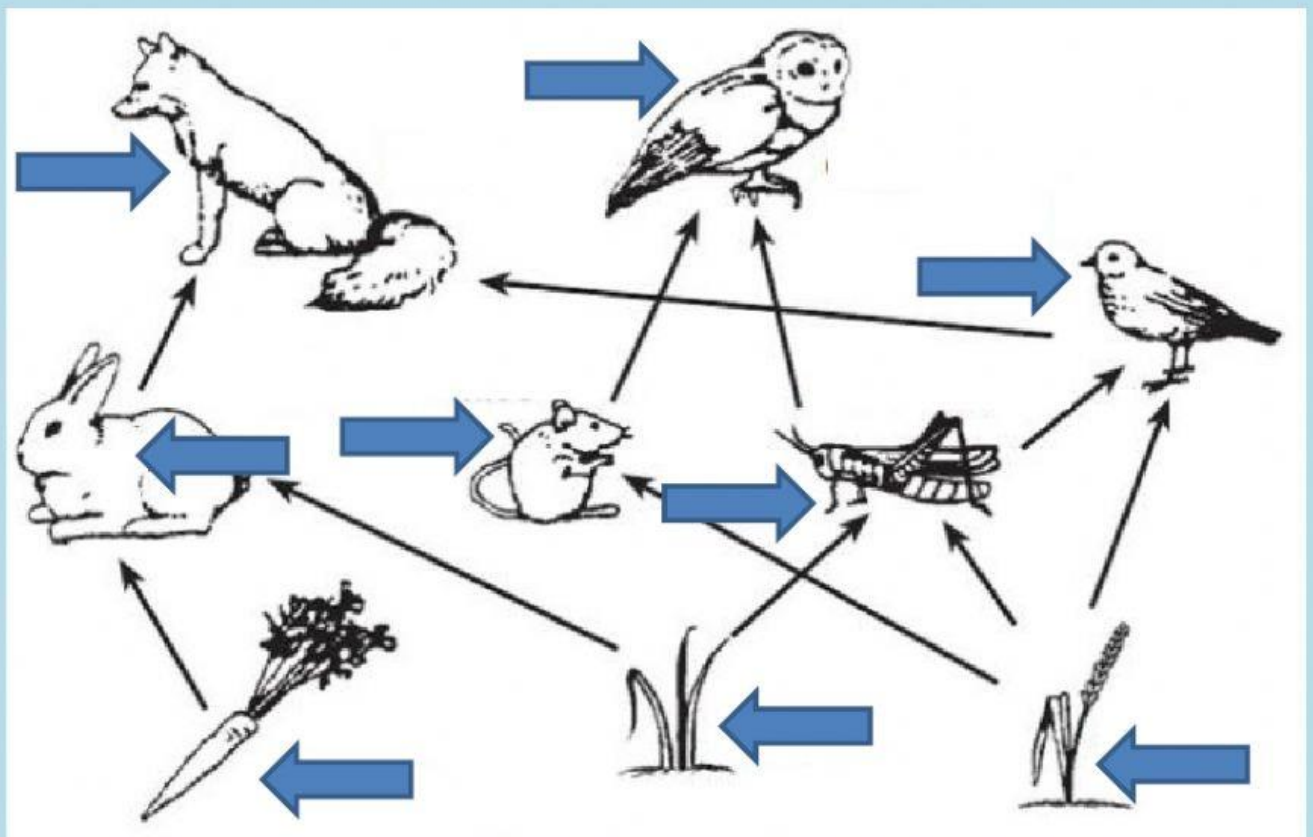

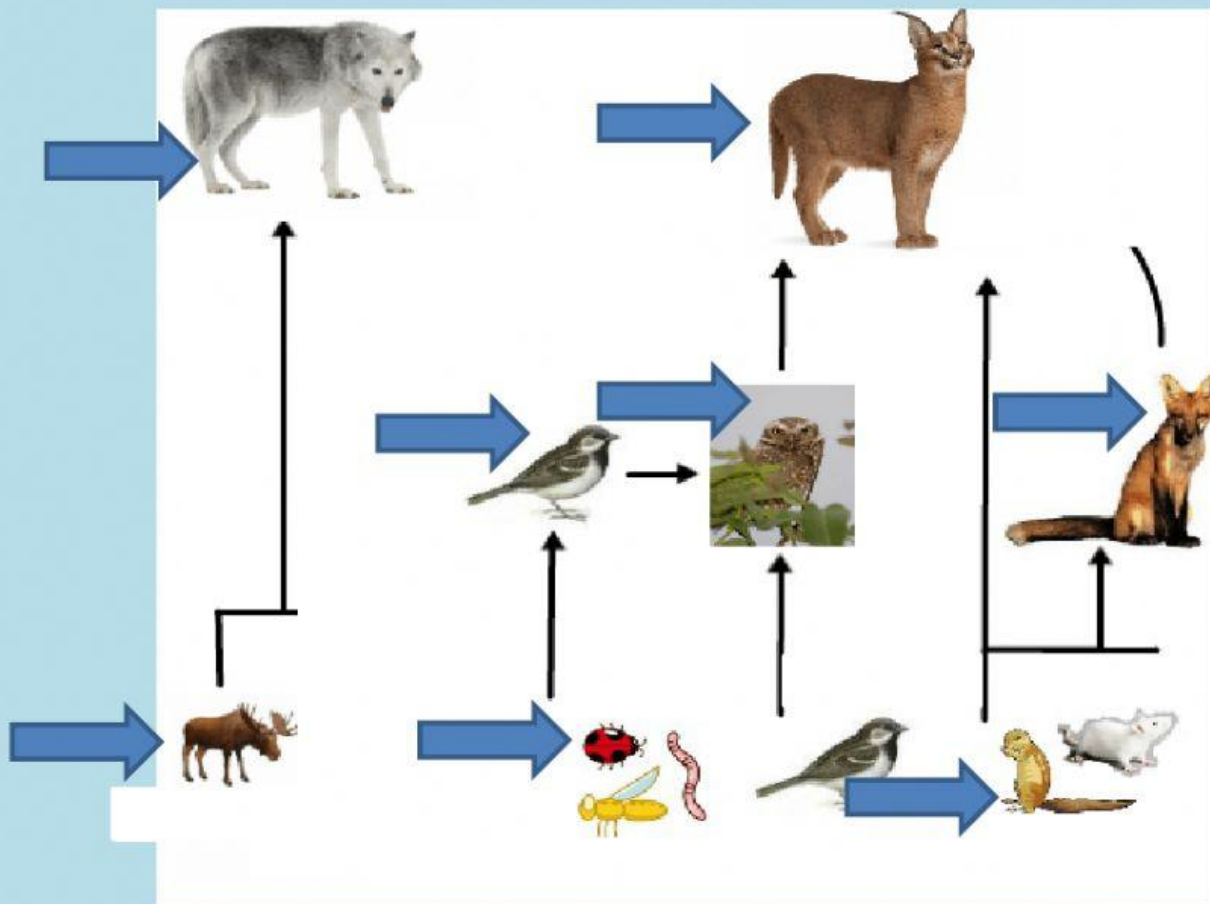

Population a group of individuals from the same species living in the same area and interacting with each other (for example a group of eels)

Community many different groups of different species living in the same area and interacting with each other. (for example groups of fish, eels, and sharks are all living in the same area and interacting)

Ecosystem groups of living things that live and interact with each other as well as with non-living things.

7. Complete the food webs: fox / owl / woodpecker / rabbit / mouse / grasshopper / dragonfly / carrot / grass / grains / tit / wolf / lynx / sparrow / moose / squirrel / hedgehog / ladybird / earthworm

8. Do you recognize the plants and animals of the temperate forest? Write their names: lichen / bear / hawk / birch tree / deer / fern / mushroom / woodpecker / lynx / owl / wolf

Maple Tree

Beech Tree

Oak Tree

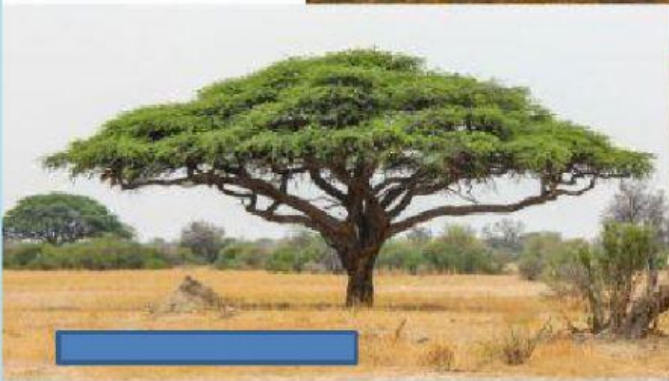

Extra task. Do you recognize the biome and the plants and animals?

Caribou

Desert Squirrel

Puffer fish
