Kids and their Brothers and Sisters

Jenny has got two brothers, Richard and Don. Richard is thirteen and Don is sixteen. Many girls in her class think it's great to have big brothers. But Jenny thinks Richard is a **pest** (*вредина*). He is very unfair. He says she can't watch TV late in the evening and she can't play on his computer when he's not at home. And he calls her "Baby"! Don is really nice. At weekends he plays table tennis with her. Sometimes he buys ice cream or chewing gum for her.

Jenny would like to have an elder sister. She thinks it would be great going shopping with her. And she would help her with her homework. Benny has got a sister Laura. Laura is sixteen. Benny likes her and she likes him. When she has no homework, she plays cards with him. But not at weekends. Then she goes out with her friends. Benny's best friend is Phill. He sits next to Benny at school. He has no brothers or sisters, but he has two lovely dogs. In the afternoon he often goes to the park with them. There they can run and play.

Janet is the girl Benny likes best. She lives next door. She has an elder sister. Her name's Emily. And she has three younger brothers. They always make a lot of noise. So Janet often comes to his place to watch TV or play games.

1. Don and Richard are

1. twins
2. Jenny's best friends
3. teenagers.

2. Jenny likes....

1. Richard more
2. her brothers
