READING ASSESSMENT

Let's listen and read!

Upside Down World

The problem

- » The COVID-19 is contagious when many people are in one place.
- » Usually, public transportation is crowded.
- » Bikes offer an alternative kind of transportation, but they are expensive.

Opportunity

- » Many people use bikes as transportation.

JANKO ECO-BIKES

Innovation

- » Bamboo grows in different places in Peru.
- » Bamboo is a strong plant.
- » It is a good material to make bikes and it is cheap.

The Janko Ecobicicleta

- » This bike is eco-friendly.
- » The designer is Víctor Barraza.
- » He is an architect.
- » He's from Tingo María, but he lives in Lima.
- » The most important part of the Janko eco-bike is the frame.
- » It is entirely made of bamboo.
- » The Janko eco-bike is light, very fast and cheap.
- » This invention is amazing.

If your score is,	0-7	8=11; 9=12; 10=13	11=15; 12=16; 13=17	14=17; 15=20
