اطرح؟

$$-34 - (-20) = \underline{\hspace{2cm}}$$

$$15 - (-14) = \underline{\hspace{2cm}}$$

$$-27 - (-33) = \underline{\hspace{2cm}}$$

أوجد قيمة كل تعبير إذا كان $h = 9$, $g = 7$, $f = -6$

$$f - 6 = \underline{\hspace{2cm}}$$

$$h - f = \underline{\hspace{2cm}}$$

$$g - h = \underline{\hspace{2cm}}$$

$$5 - f = \underline{\hspace{2cm}}$$

$$4 - (-g) = \underline{\hspace{2cm}}$$

$$-8 - (-h) = \underline{\hspace{2cm}}$$
