## SYLLABICATION

A **syllable** is the **sound of a vowel** when you pronounce a word. It is easy to clap the word as you say it to count the number of syllables in that word.

### NUMBER OF SYLLABLES

1	2	3	4

Drag the words to the correct column according to the number of syllables in each word.

Choose the word that shows the correct division of the syllables.

window

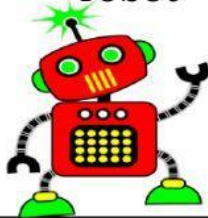

a. wi-n-dow  
b. win-dow  
c. wind-ow

goblin

a. gob-lin  
b. go-b-lin  
c. go-blin

robot

a. ro-bot  
b. r-o-bot  
c. rob-ot

teacher

a. te-acher  
b. teach-er  
c. tea-cher

computer

a. com-pu-ter  
b. com-p-uter  
c. wind-ow

scientist

a. scien-tist  
b. sc-ient-ist  
c. sci-en-tist

Say the word then clap out the syllables. Write the number of syllables on the line.

- |                   |                      |
|-------------------|----------------------|
| 1. fruit _____    | 6. black _____       |
| 2. tablet _____   | 7. government _____  |
