Round 53 748 129. (Use the rules to help you. Write only the answer in numeral form with spacing where necessary. Do not answer in sentences.)

1. Look at the place value of the number which is to be rounded.

2. Check next door to the right. If it is 5 or more, raise the score by adding one to the number that we are rounding. If it is less than 5, let it rest.

3. Place zeros for all the numbers to the right of the rounded digit.

1. To the nearest thousands.

2. To the nearest ten thousands

3. To the nearest hundred thousands

4. To the nearest millions

5. To the nearest ten millions
