UNIT 3: WATCH A VIDEO: CITIZEN SCIENTISTS

A ▶ Watch the video. Choose the best alternative title for it.
   a. How Crowdsourcing Led Us to an Ancient Tomb
   b. Journeying on Horseback Across the Burkhan Khaldun
   c. Lessons from a Crowdsourcing Failure

B ▶ Watch the video again and answer the questions below.
   1. What is a good indicator that something is man-made?
      _____ ___lines _____

   2. How does the team know that this is not Genghis Khan's tomb?
      It's too _____. _____

   3. Why is Lin encouraged by the discovery of this tomb?
      _Because if citizen _____ can find this tomb, they can probably find _____
      tombs, too.

Task 2: Watch the video again and fill in the blank NO MORE THAN TWO WORDS and/ or NUMBERS.

1. To find the tomb of Genghis Khan, the team uses a "human _____ network".

2. Citizen scientists all over the world scan the photographs and _____ all unusual things, for example _____.

3. Scientists tagged an unusual rectangle shape, which was made of _____, on the satellite map.

4. Lin and his team found a tomb which is more than 3000 years old. The tomb is stated to be built in Bronze _____.
