## Big Cities

Big cities around the world are usually very crowded and busy. Most of them are facing similar problems nowadays. For instance, there is a lot of noise, delinquency, garbage, pollution, and so much traffic. In Quito, the authorities at City Hall are taking action to help solve the problem. They are not allowing people with cars to drive for a specific day each week. This new law is called "*hoy no circula*." The day is chosen according to the last number of the car's license plate. This law reduces the number of cars circulating in the city during rush hour. What do you think of this law?
