You are what you eat

Over this past years, eating healthy is more important than ever. The food we eat affects how we feel and the way our body functions. Moreover, healthy foods help our immune system function effectively.

It is important to eat a variety of food groups because they provide the body with important nutrients. Fruits and vegetables offer a lot of vitamins, minerals and fiber. Grains, nuts, and healthy fats, like olive oil, can support our immune system and reduce inflammation. Beans and peas can reduce the risk of diseases like diabetes.

Obesity and overweight have been increasing in the past years. In addition to making healthy food choices, it is also important to exercise. Exercise is good for both our physical and mental health.

We are responsible for protecting ourselves. Eat healthy, exercise, and live better.
