

Mason made a cardboard house at school. The lower part of the house is a rectangular prism and the upper part a triangular prism. Find the volume of the house.

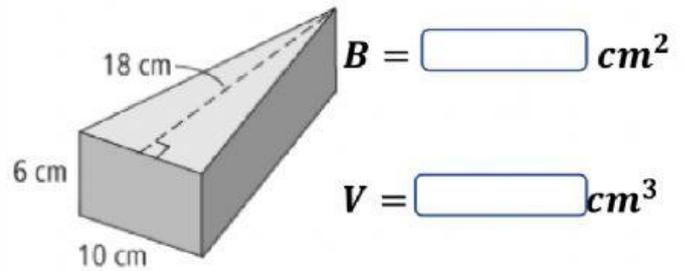

$$V_1 = \boxed{} \text{ ft}^3$$

$$V_2 = \boxed{} \text{ ft}^3$$

$$V_1 + V_2 = \boxed{} \text{ ft}^3$$

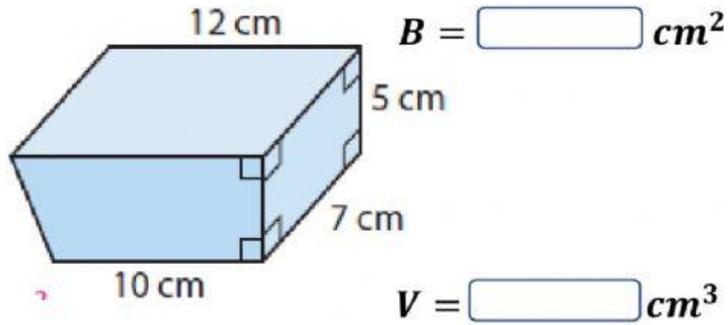

Anita cuts a piece of birthday cake as shown below. What is the volume of the piece of cake?

$$B = \boxed{} \text{ cm}^2$$

$$V = \boxed{} \text{ cm}^3$$

Work out the volume of the trapezoidal prism shown.

$$B = \boxed{} \text{ cm}^2$$

$$V = \boxed{} \text{ cm}^3$$

8. The volume V of a prism is the area of its B times its height h .
