3. Write in the correct word.

The image displays 10 distinct polyominoes, each constructed from 10 squares. These are the 10 pentdeciamonds, arranged in two columns of five. The shapes are as follows:

- Top Left:** A horizontal row of 10 squares with a single square attached to the top of the first and last squares.
- Second Left:** A horizontal row of 10 squares with a single square attached to the top of the third square and a single square attached to the top of the tenth square.
- Third Left:** A horizontal row of 10 squares with a single square attached to the top of the fourth square and a single square attached to the top of the eighth square.
- Bottom Left:** A horizontal row of 10 squares with a single square attached to the top of the fifth square and a single square attached to the top of the ninth square.
- Top Right:** A horizontal row of 10 squares with a single square attached to the top of the first square and a single square attached to the top of the tenth square.
- Second Right:** A horizontal row of 10 squares with a single square attached to the top of the second square and a single square attached to the top of the seventh square.
- Third Right:** A horizontal row of 10 squares with a single square attached to the top of the third square and a single square attached to the top of the eighth square.
- Bottom Right:** A horizontal row of 10 squares with a single square attached to the top of the fourth square and a single square attached to the top of the ninth square.
