

Mathematics Rounding off to the nearest 10

Steps to follow when rounding off

1. Look for the number on the number line.
2. Find the two tens that the number comes between.
3. See if it is a weak number or a strong number.
4. If it is a weak number, round down to the smaller 10.
If it is a strong number, round up to the bigger 10.

Weak numbers are (1, 2, 3, 4) strong numbers are (5, 6, 7, 8)

Use the number line to help you round off the numbers

50 51 52 53 54 55 56 57 58 59 60

1. $52 =$
2. $59 =$
3. $51 =$
4. $56 =$
5. $58 =$
6. $54 =$
7. $57 =$
8. $53 =$
9. $55 =$
