

A. Read the predictions and think about your partner's future plans. Make three more predictions of your own at the bottom of the worksheet. Then, write 'yes' next to the prediction if you think it will come true or 'no' if you think it won't. If you write 'yes', think of a reason why.

B. Now, take it in turns to tell your partner about your predictions and reasons using the future simple form 'will' and 'won't'. Put a tick if your prediction is right or a cross if it's wrong.
