

2. The table shows the number of 20¢ coins and 50¢ coins that five pupils saved.

| Pupil   | 20¢ Coins                 |                   | 50¢ Coins                 |                   | Total Amount Saved (\$) |
|---------|---------------------------|-------------------|---------------------------|-------------------|-------------------------|
|         | Number of Coins Collected | Amount Saved (\$) | Number of Coins Collected | Amount Saved (\$) |                         |
| Ali     | 16                        | 3.20              | 20                        |                   |                         |
| Bernard | 10                        | 2.00              | 7                         | 3.50              | 5.50                    |
| Hazlina | 18                        |                   | 24                        |                   | 15.60                   |
| Devi    | 21                        | 4.20              | 9                         | 4.50              | 8.70                    |
| Ahmad   | 15                        |                   | 15                        | 7.50              |                         |

- (a) Complete the table to find out how much they saved.
- (b) Who saved the most amount? \_\_\_\_\_
- (c) Who saved the least amount? \_\_\_\_\_
- (d) How many more coins did Hazlina collect than Ahmad? \_\_\_\_\_
- (e) How much more must Bernard save in order to have the same amount as Devi? \$\_\_\_\_\_
- (f) If Ali changed all his 50¢ coins to 20¢ coins having the same value, how many 20¢ coins will he have altogether? \_\_\_\_\_
- (g) • Which two children collected the same number of coins?  
\_\_\_\_\_ *Devi* \_\_\_\_\_ and \_\_\_\_\_
- Of the two, who had saved more money? \_\_\_\_\_
- How much more? \$\_\_\_\_\_
