There are many types of exercises that a person can do to stay healthy. Jogging is one form of exercise. It is not an expensive activity when compared to going to a gym. To join a gym, you have to pay membership fees. The only expense when you take up jogging is having to buy a good pair of running shoes.

Jogging is good for the heart as it helps to keep the heart and heart muscles strong. This form of exercise also improves blood circulation. It helps to strengthen our muscles especially the leg muscles. It helps people who are overweight to lose weight and build muscle strength.

The best place to jog would be at a park or where there is a lot of greenery. When we jog, we are out in the open with nature and this is good for the mind. The air is fresh and we can enjoy the natural environment. In a gym, you are in a confined environment.

Do not go jogging along highways and places where there is a lot of traffic. This can be dangerous and unhealthy as the air is polluted.

Subject PC Fair at Putra World Trade Centre

Hi, Ronnie, I received your message yesterday asking me to tell you about my visit to the PC fair at the Putra World Trade Centre. For your information, the event was held for a week from the 12th of May to the 19th of May. On the day that I went, there was a large crowd of people interested in buying computers and computer accessories. There were many activities as well such as a Computer Exhibition, a few quizzes and a Young Scientist competition. These attracted many visitors to the fair. Many companies were also giving away MP3s and pen drives for free. I participated in a survey and answered a questionnaire on the importance of the Internet in daily life. I have attached a copy of the questionnaire for you to complete and submit to the company carrying out the survey. Since you are interested in buying a laptop, there will be another PC Fair in November at the same place. I hope you will be able to visit that one.

Bye
Rashid
